

IRIAGBONSE ERICA AGBOGHIDI

Entry-Level Data Analyst

Ericawealth1@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Detail-oriented and analytical professional transitioning into data analysis, backed by hands-on experience using SQL, Power BI, and Excel to clean, model, and visualize data across sales, e-commerce, HR, and sports analytics case studies. Brings a strong foundation in business communication and stakeholder management from prior roles in executive administration and sales, with a proven ability to interpret data and translate insights into clear, actionable recommendations. Certified in Business Analysis Fundamentals, with a Bachelor's degree in Biochemistry that reinforces a rigorous, evidence-based approach to problem-solving. Seeking an entry-level Data Analyst role in sales, human resources, finance, or healthcare.

CORE SKILLS

Data Analysis & Interpretation | SQL (Querying, Joins, CTEs) | Power BI (Dashboards & Data Modeling) | Microsoft Excel (Pivot Tables, Formulas, Data Cleaning) | Business Communication | Stakeholder Management | Adaptability & Problem-Solving | Data Visualization | Report Writing | Attention to Detail

DATA ANALYTICS PROJECTS (SELF-DIRECTED PORTFOLIO, JUNE 2026 – PRESENT)

E-Commerce Sales & Customer Insight Analysis

- Analyzed e-commerce sales transactions in Excel and Power BI to identify customer purchasing patterns and product performance trends, presenting findings through an interactive dashboard.

E-Commerce Returns Analysis

- Investigated product return patterns using Excel and Power BI to uncover potential drivers of returns, building visualizations to communicate findings to non-technical stakeholders.

30-Day SQL Challenge — AdventureWorks Database

- Completed a structured 30-day SQL practice series on the AdventureWorks database, writing queries involving joins, aggregations, subqueries, and CTEs to extract and analyze business data.

FIFA World Cup 2026 Analysis

- Built a data analysis project exploring FIFA World Cup 2026 data, using Power BI to visualize trends and present insights in an accessible dashboard format.

HR Executive Dashboard

- Designed an HR executive dashboard in Power BI consolidating key workforce metrics into a single view to support data-driven HR decision-making.

PROFESSIONAL EXPERIENCE

Sales Manager — Shalines Hub

Lagos, Nigeria | 2017 – 2018

- Tracked and reported daily and weekly sales performance using Excel, identifying trends to inform stock and pricing decisions.
- Analyzed customer buying behavior to guide sales strategy and improve customer engagement.
- Communicated performance updates and recommendations to management, supporting informed business decisions.
- Maintained accurate sales records and reports, ensuring data integrity for business review.

Executive Assistant — Life Imprints

Lagos, Nigeria | 2016 – 2017

- Compiled, organized, and maintained business records and reports to support executive decision-making.
- Coordinated schedules, correspondence, and cross-functional communication between departments and stakeholders.
- Managed data entry and documentation processes, ensuring accuracy and consistency across records.
- Prepared summaries and reports for leadership, strengthening written and verbal business communication skills.

EDUCATION

Bachelor of Science (BSc) in Biochemistry

Ambrose Alli University, Ekpoma | 2016
